

# Prone Stander by Jenx

The Prone Stander is dedicated to assisted prone standing and offers a continuous range of angles so the optimum position for each child can be achieved. The Prone Stander by Jenx aims to make standing enjoyable, practical and simple to achieve for the user.

**2 Sizes Available**  
Available in Size 1 or 2, accommodating users from approx. 3 - 14 years or up to 70kg.

**Angle Adjustable Activity Tray**  
The angle adjustable tray provides the perfect surface for a wide range of activities. Contrasting tray edging gives a definitive boundary particularly useful for users with visual impairments.

**Moulded Supports**  
Fully adjustable supports made from polyurethane which also contains an antimicrobial agent.

**Adjustable Chest and Hip Pads**  
These highly adjustable PU moulded supports can be adjusted to offer different widths, heights and angles. They carry the postural support and safety strap, creating a stable standing position for a child.

**Angle and Height Adjustable**  
The Prone Stander can be angled from 0° to 40°, with the height being continuously adjustable not incremental, offering every child the right length to support them as they stand.

**Tilting Footboard**  
Innovative tilting footboard design assists in making sit-to-stand transfers easier.
